

PROSImicro Zn Mn L

Liquid Mix of Micronutrients, Manganese (Mn), Zinc (Zn), EC Fertilizer

A liquid fertilizer to prevent and correct zinc and manganese deficiencies. It also contains nitrogen and carbohydrates that encourage the plant's metabolism and accelerate assimilation and absorption. It acts on physiological processes, photosynthesis, etc.

Applications

PROSImicro is a comprehensive line of products which contain a balance of essential micronutrients in their formula for application to all types of crops in case of slight to moderate deficiencies or for preventive treatments. Thanks to their formulation they are ideal for application to all types of crops using any irrigation system. **PROSImicro**, once it has been dissolved in water, is an exceptional solution like a corrector of multiple deficiencies in the form of high quality. **PROSImicro** range are a highly stable, effective products for all types of soils, including those with a high pH. This products is also recommended for fertilizing hydroponic crops and can be applied directly to the soil or leaves.

Mixing preparation and compatibility

Before preparing a final mixture should make some compatibility tests. If you have doubt, consult with the Technical Department. **PROSImicro ZnMn L** is compatible with most of NPK fertilizer and plant protection of normal use.

Observations

The recommendations and information we have provided are the result of extensive and rigorous studies and trials. However, in using many factors may be beyond our control (mixtures of preparation, implementation, climatology, etc.) The company guarantees the composition, design and content. The user will be responsible for damage (lack of efficacy, toxicity, generally waste, etc.) in respect for all part of the label instructions.

Consult the technical service in case of doubt:

DECLARED CONTENT

Manganese (Mn)	2,40% w/w	(3,36% w/v)
Zinc (Zn)	4,85% w/w	(6,79% w/v)
Density	1,40gr/cc	
pH	3.50	

CROPS DOSSES APPLICATION

CROPS	DOSSES		APPLICATION
	Foliar cc/100 L	Soil L/Ha	
Fruit trees, olive tree and grappes	150-200	2-3	Preflowering
Melon, watermelon, etc.	150-200	2-4	Preflowering
Horticultural	150-200	2-3	Applying with enough foliar mass
Gardening	150-200	3-5	Preflowering
Another Cultivations	100-200	2-5	Applying with enough foliar mass
