

# PROSIquel Cu EDTA SS

## Copper Chelat

**PROSIquel Cu EDTA SS** is an outstanding copper correcting chelate by EDTA. **PROSIquel Cu EDTA SS** is a highly soluble corrector, which thanks to its formulation has a fungicidal and fungistatic effect. **PROSIquel Cu EDTA SS** may be applied to leaves or root (soil) and used on all crops with copper deficiencies. It should always be diluted in water.

### **Applications**

#### **Foliar application:**

Fruits trees: 100 g/Hl; Citrus fruits: 75 gr/Hl; Horticultural plants: 20-40 g/Hl. Ornamental plants, gardens: 40 g/Hl

#### **Application to roots:**

Fruits trees: 2-6 g/trees; Citrus fruits: 2-4 g/trees; Horticultural plants: 0,5 -1 Kg/Ha; Patatoes: 0,5-0,75 Kg/Ha; Other crops: 0,75 Kg/Ha

Fruits trees: Carrying out 2 Treatments during spring budding.  
Citrus fruits: Carrying out 2-3 treatments between spring budding and summer. Horticultural plants: Carrying out 1 treatment when the plant has 4 to 8 leaves. Other crops: Carrying out 2 to 3 treatments when there is sufficient leaf mass.

### **Mixing preparation and compatibility**

Before preparing a final mixture should make some compatibility tests. If in doubt consult with the Technical Department.

**PROSIquel Cu EDTA SS** is compatible with most of NPK fertilizer and plant protection of normal use.

### **Observations**

The recommendations and information we have provided are the result of extensive and rigorous studies and trials. However, in using many factors may be beyond our control (mixtures of preparation, implementation, climatology, etc.) The company guarantees the composition, design and content. The user will be responsible for damage (lack of efficacy, toxicity, generally waste, etc.) in respect for all part of the label instructions. Consult the technical service in case of doubt: [dptotecnicoeur@prosisa.com](mailto:dptotecnicoeur@prosisa.com)

### DECLARED CONTENT

Copper (Cu)	15 % (w/w)
Chelated Fraction	100 % (w/w)
Copper (Cu) chelated EDTA	15 % (w/w)
pH stability interval of chelated fraction	3-8
